The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

Reports from Matanzas, Cardenas, Isabela de Sagua, and Caibarien.

MANTANZAS, CUBA, October 10, 1900.

SIR: I have the honor to submit herewith the following sanitary report of the quarantine district under my command for the week ended October 6, 1900:

Matanzas.—Fourteen deaths occurred in the city of Matanzas during the period covered by this report, showing a mortality of 16.13 per 1,000. The principal causes of deaths were as follows: Tuberculosis, 3; heart disease, 3; pernicious fever, 1; malarial fever, 1; enteritis, 1; cerebral hemorrhage, 1; Bright's disease, 1; other causes, 3. The following cases of infectious or contagious character were reported: Typhoid fever, 1; dysentery, 1. Six vessels were inspected and passed on arrival. Four bills of health were issued to foreign vessels. The British steamship *Ardanrose* bound for Mobile, Ala., was disinfected at this port on the 4th instant. Fourteen health certificates were issued to persons leaving the island. Sixteen pieces of baggage were inspected and passed and 11 pieces were disinfected. Forty-six bundles of clothes and bedding, belonging to the British steamship *Ardanrose*, were disinfected.

Cardenas.—Acting Asst. Surg. Enrique Saez reports that 9 deaths occurred in Cardenas during the week. The principal causes of deaths were as follows: Tuberculosis, 3; enteritis, 2; heart disease, 1; other causes, 3. Eight vessels were inspected and passed on arrival; 3 of these were foreign vessels and 5 coasting vessels. Three bills of health were issued to foreign vessels. The death rate during the week was 18.90 per 1,000. No cases of infectious or contagious character were reported.
